

STRATIS 1100

STRATIS 1100 provides unmatched performance. Every STRATIS sail is 100% custom to you and your yacht. Delivering our lightest, fastest, strongest sails which are smoother when set.

By sailors, for sailors.
doylesails.com

SUITABLE FOR: Cruising, Performance Cruising, Racing, Grand Prix Racing, Superyacht Cruise and Superyacht Race.

CONSTRUCTION: Carbon and Technora Fibre

STRATIS 1100 provides unmatched flexibility in fibre orientation, accuracy of placement and superior lamination. All fibres are designed to be load bearing, converging to every load point on the sail.

CUSTOM DESIGNED FOR YOU: Custom designed sails allow for a layout that produces stronger, lighter and faster sails that are smoother when set. STRATIS 1100 sails hold their shape better with significantly less stretch, lasting longer than any other alternative on the market.

CARBON & TECHNORA: Carbon and Technora fibres are used in conjunction with specific resins which have been selected for their long term durability and resistance to high humidity and wet conditions.
